To whom it may concern:

Donna Cori Gibson was invited to our parish as a part of a month long celebration for completing and moving into our new and beautiful church. I had heard her previously many years ago when I was newly ordained and it was a memorable occasion that prompted me to include her in our celebration twelve years later.

Donna made the extra effort to be at the Masses that weekend to give people a little taste of what the later concert would be. Many people commented on how beautiful her voice is. One even mentioned she was teary-eyed when she heard Donna sing.

Donna is one of the rare musicians who have the wonderful blending of a beautiful voice, a strong faith, and genuine love for the Lord that can enable others to have a heart-felt religious experience. She was very attentive to that by reminding attendees not to clap after songs as spectators, but to engage the meaning of the songs and let the Spirit move them.

I recommend Donna to any parish or religious organization interested in having her perform.

Yours in Christ,

Fr. Glen Wilwerding
